Cautionary and Technical Statements

Cautionary Notes - Information Purposes Only

The information contained in this presentation is provided by OceanaGold Corporation (“OGC”) for informational purposes only and does not constitute an offer to issue or arrange to issue, or the solicitation of an offer to issue, securities of OGC or other financial products. The information contained herein is not investment or financial product advice and has been prepared without taking into account the investment objectives, financial situation or particular needs of any particular person. The views, opinions and advice provided in this presentation reflect those of the individual presenters only. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusion contained in this presentation. To the maximum extent permitted by law, none of OGC or any of its directors, officers, employees or agents accepts any liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of the information contained in this presentation. Furthermore, this presentation does not constitute an offer of shares for sale in the United States or to any person that is, or is acting for the account or benefit of, any U.S. person (as defined in Regulation S under the United States Securities Act of 1933, as amended (the “Securities Act”)) (“U.S. Person”), or in any other jurisdiction in which such an offer would be illegal. OGC’s shares have not been and will not be registered under the Securities Act.

Cautionary Statement Concerning Forward Looking Information

Certain information contained in this presentation may be deemed “forward-looking” within the meaning of applicable securities laws. Forward-looking statements and information relate to future performance and reflect OGC’s expectations regarding the generation of free cash flow, execution of business strategy, future growth, future production, estimated costs, results of operations, business prospects and opportunities of OGC and its related subsidiaries. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as “expects” or “does not expect”, “is expected”, “anticipates” or “does not anticipate”, “plans”, “estimates” or “intends”, or stating that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved) are not statements of historical fact and may be forward-looking statements. Forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those expressed in the forward-looking statements and information. They include, among others, the accuracy of mineral reserve and resource estimates and related assumptions, inherent operating risks, and those risk factors identified in OGC’s most recent annual information forms prepared and filed with securities regulators which are available on SEDAR at www.sedar.com under OGC’s name.

There are no assurances OGC can fulfil forward-looking statements and information. Such forward-looking statements and information are only predictions based on current information available to management of OGC as of the date that such predictions are made; actual events or results may differ materially as a result of risks facing OGC, some of which are beyond OGC’s control. Although OGC believes that any forward-looking statements and information contained in this presentation are based on reasonable assumptions, readers cannot be assured that actual outcomes or results will be consistent with such statements. Accordingly, readers should not place undue reliance on forward-looking statements and information. OGC expressly disclaims any intention or obligation to update or revise any forward-looking statements and information, whether as a result of new information, events or otherwise, except as required by applicable securities laws. The information contained in this release is not investment or financial product advice.

Technical Disclosure

Mineral Resources for Macraes have been verified and approved by, or are based upon information prepared by or under the supervision of S. Doyle; that relating to Waihi by P. Church; that relating to Didipio by J. G. Moore; and that relating to Macraes by P. Doelman for open pit and T. Maton for the underground. Mineral Reserves for Macraes have been verified and approved by, or are based upon information prepared by, or under the supervision of, P. Doelman for open pit and T. Maton for the underground; for that relating to Waihi by T. Maton for open pit and D. Townsend for underground; and that relating to Didipio by C. Fawcett. The Mineral Reserves and Resources for Haile have been verified and approved by, or are based upon information prepared by or under the supervision of B. van Brunt.

Information relating to Macraes exploration results in this presentation has been verified by, is based on and fairly represents information compiled by or prepared under the supervision of H. Blakemore; information relating to Waihi exploration results by L. Torckler; information relating to Didipio exploration results by J. Moore; and information relating to Haile exploration results by J. Jory.

P. Church, P. Doelman, S. Doyle, J. Jory, J. G. Moore, and T. Maton are Members and Chartered professionals with the Australasian Institute of Mining and Metallurgy while H. Blakemore is a member of the Australian Institute of Geoscientists (AIG). Messrs Blakemore, Church, Doelman, Doyle, Jory, Moore, and Maton have sufficient experience, which is relevant to the style of mineralisation and type of deposits under consideration, and to the activities which they are undertaking, to qualify as Competent Persons as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves” (“JORC Code”) and all are Qualified Persons for the purposes of the NI 43-101. Messrs Blakemore, Church, Doelman, Doyle, Jory, Moore, and Maton are employees of OceanaGold, and they consent to the inclusion in this public presentation of the matters based on their information in the form and context in which it appears.

For further scientific and technical information (including disclosure regarding mineral resources and mineral reserves) relating the Macraes Operation, the Didipio Operation, the Waihi Operation and the Haile Operation, please refer to the NI 43-101 compliant technical reports available at sedar.com under the Company’s name.

General Presentation Notes

All AISC and cash costs are net of by-product credits unless otherwise stated

All financials are denominated in US Dollars unless otherwise stated

- 2020 Guidance provided excludes Didipio. Following resumption of operations at Didipio, the Company will update the 2020 guidance. Combined AISC is inclusive of \$20m of corporate overheads. Each site AISC excludes corporate overhead allocations. Only Haile and Macraes exploration capital is included in the Company's AISC. Guidance may also be impacted by operational restrictions or impacts due to the Covid-19 virus
- TRIFR = Total Recordable Injury Frequency rate
- Third-party analysis
- Reserves & Resources are reported as at December 31, 2019
- M&I Resources are inclusive of P&P Reserves

Strategic Focus

Managing for the near-term

- 
- 1 EXECUTE CURRENT OPERATIONAL PLANS**
 - 2 RESTART DIDIPIO OPERATIONS**
 - 3 INVEST IN ORGANIC GROWTH**

Planning for the long-term

Organic Growth Pipeline

Waihi Overview

2019 PRODUCTION
68.1k ounces

2020 PRODUCTION GUIDANCE
18k – 20k ounces

2019 SITE AISC
\$826 per ounce sold

2020 SITE AISC GUIDANCE
\$715 – \$765 per ounce sold

OPERATIONS

- 12MMA TRIFR: 4.2 per million work hours (Q1/20)
- Transitional year with completion of mining in Q1
- Focus now on development of Martha Underground

GROWTH

- First production at Martha Underground Project expected Q2/21
- Waihi District Study forthcoming: to include Martha Underground, WKP and other regional opportunities
- Study to provide production, cost and capital estimates for development of regional projects
- Drilling at WKP continues to yield significant results

Macraes Overview

2019 PRODUCTION
172.5k ounces

2020 PRODUCTION GUIDANCE
160k – 170k ounces

2019 SITE AISC
\$1,057 per ounce sold

2020 SITE AISC GUIDANCE
\$1,000 – \$1,050 per ounce sold

OPERATIONS

- 12MMA TRIFR: 3.1 per million work hours (Q1/20)
- Delivered steady production and costs year-over-year
- Zero-cost collar hedges currently in place for 2020 production
- No additional hedges currently planned

GROWTH

- Mine life extension options identified through exploration success and mine planning
- Golden Point Underground study underway with H2/20 expected completion date
- Additional optionality with Round Hill Project at end of mine life

Haile Overview

2019 PRODUCTION
146.1k ounces

2020 PRODUCTION GUIDANCE
180k – 190k ounces

2019 SITE AISC
\$1,210 per ounce sold

2020 SITE AISC GUIDANCE
\$1,080 – \$1,130 per ounce sold

MINING PHYSICALS

■ Waste Mined ■ Ore Mined

MINING UNIT COSTS

OPERATIONS

- 12MMA TRIFR: 5.7 per million work hours (Q1/20)
- Jim Whittaker joined as Executive General Manager in August 2019
- Unit costs down in all areas year-over-year
- Expanded mining fleet, mine plan efficiencies, process plant upgrades, and productivity improvements well-executed in 2019

GROWTH

- Process plant expansion complete in Q1/20; hitting record throughput rates
- Optimization of Horseshoe underground underway with development planned for 2021
- Haile expansion ongoing with capital spend on waste storage expansion and tailings wall lifts

Didipio – FTAA Renewal Update

FTAA RENEWAL CURRENTLY WITH THE OFFICE OF THE PRESIDENT

- FTAA renewal with Office of the President
- Strong support from regulatory agencies, national & local governments
- Workforce Impacted: 1,500 (97% Filipinos, 59% local)
Indirectly impacted: > 4,000
- Tangible Philippine Government Actions:
 - *6,846 ounces gold doré export approved and sold in March*
 - *100,000 litres of diesel delivered in early April for back-up power*
- Temporary lay-off of non-essential workers (462 employees) in April due to COVID-19 and operational constraints

CURRENT STATE

ramp-up schedule

Approx. Timing

PROCESSING	1 – 2 weeks
MINING	3 – 4 weeks
FULL PRODUCTION	4 – 6 weeks

CARE AND MAINTENANCE

ramp-up schedule

Approx. Timing

FULL PRODUCTION	~ 12 months
