Cautionary Statement Concerning Forward Looking Information

Certain information contained in this presentation may be deemed "forward-looking" within the meaning of applicable securities laws. Forward-looking statements and information relate to future performance and reflect OGC's expectations regarding the generation of free cash flow, execution of business strategy, future growth, future production, estimated costs, results of operations, business prospects and opportunities of OGC and its related subsidiaries. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects" or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "estimates" or "intends", or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved) are not statements of historical fact and may be forward-looking statements. Forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those expressed in the forward-looking statements and information. They include, among others, the accuracy of mineral reserve and resource estimates and related assumptions, inherent operating risks, and those risk factors identified in OGC's most recent annual information forms prepared and filed with securities regulators which are available on SEDAR at www.sedar.com under OGC's name.

There are no assurances OGC can fulfil forward-looking statements and information. Such forward-looking statements and information are only predictions based on current information available to management of OGC as of the date that such predictions are made; actual events or results may differ materially as a result of risks facing OGC, some of which are beyond OGC's control. Although OGC believes that any forward-looking statements and information contained in this presentation are based on reasonable assumptions, readers cannot be assured that actual outcomes or results will be consistent with such statements. Accordingly, readers should not place undue reliance on forward-looking statements and information. OGC expressly disclaims any intention or obligation to update or revise any forward-looking statements and information, whether as a result of new information, events or otherwise, except as required by applicable securities laws. The information contained in this release is not investment or financial product advice.

Technical Disclosure

The exploration results were prepared in accordance with the standards set out in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' ("JORC Code") and in accordance with National Instrument 43-101 – Standards of Disclosure for Mineral Projects of the Canadian Securities Administrators ("NI 43-101"). The JORC Code is the accepted reporting standard for the Australian Stock Exchange Limited ("ASX").

Information relating to Waihi exploration results in this document has been verified by, is based on and fairly represents information compiled by or prepared under the supervision of Lorraine Torckler, a Fellow of the Australasian Institute of Mining and Metallurgy and an employee of OceanaGold. Mr Torckler has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the JORC Code and is Qualified Persons for the purposes of the NI 43 101. Mr Torckler consents to the inclusion in this presentation of the matters based on their information in the form and context in which it appears.

For further scientific and technical information (including disclosure regarding mineral resources and mineral reserves) relating the Macraes Operation, the Didipio Operation, the Waihi Gold Operation and the Haile Gold Mine Project, please refer to the NI 43-101 compliant technical reports available at sedar.com under the Company's name. For further scientific and technical information (including disclosure regarding mineral resources and mineral reserves) relating to the El Dorado property, please refer to the reports publicly available on SEDAR (www.sedar.com) prepared for Pacific Rim Mining Corp.

SITE G&A COSTS	\$5.57	\$5.97	per tonne milled

Q2 PERFORMANCE

- Improved plant utilisation and increased throughput
- Plant improvements partially offset by lower grades
- Plant expansion progressing well with pebble crusher near completion

OUTLOOK

- Steady production expected in H2
- Continued focus on improving productivity
- Horseshoe UG and larger open pits permitting to commence early in Q3
- Exploration remains a key focus

Didipio Operations Overview

Q2 2018

H1 2018

Q2 PERFORMANCE

- Underground ramp-up progressing well
- Production higher QoQ due to;
 - Increased head grade
 - Better recoveries
- Revised mine plan through mining of Breccia crown pillar

OUTLOOK

- Lower H2 production as guided due to lower overall head grades
- Continued ramp-up and development of UG

Waihi Operations Overview

	Q2 2018	H1 2018	
TRIFR	—	6.7	per million work hours
GOLD PRODUCTION	20,798	39,320	oz

SITE G&A COSTS	\$21.10	\$23.00	per tonne milled

Q2 PERFORMANCE

- Increased tonnage and mill feed from better mine productivity
- Slightly lower head grade and recoveries
- Margins remain robust

OUTLOOK

- Steady production expected in H2
- Continued advancement of permitting for 10-year mine life extension
- Exploration focused on advancing Martha Resource, WKP prospect

Macraes Operations Overview

	Q2 2018	H1 2018	
TRIFR	—	7.1	per million work hours
GOLD PRODUCTION	50,368	94,786	oz

- Strike 750m and dip extent 250m
- Open in all directions

1. Refer to OceanaGold news release dated 9 July 2018 for additional details and information

2. The potential quantity and grade related to Exploration Targets in this report is conceptual in nature as there has been insufficient exploration to define a Mineral Resource. It is uncertain if further exploration will result in the determination of a Mineral Resource.

2018 Priorities

ON TRACK TO ACHIEVE 2018 GUIDANCE
GENERATE STRONG CASH FLOWS AND DELIVER ON ORGANIC GROWTH INITIATIVES

OPERATIONS

- Continued improvement of safety leadership
- Identifying and implementing productivity improvements and cost reductions
- Seeking out innovation opportunities

EXPLORATION

- Near-mine drilling at Haile
- Proving up significant Resource at Waihi
- Identifying and advancing greenfield exploration targets (e.g. WKP)

GROWTH

- Advancing the Waihi extension plans
- Advancing the Haile expansion plans
- Continuing development and ramp-up of Didipio Underground

FINANCIAL

- Focusing on disciplined capital allocation
- Maintain low levels of debt
- Continuing to deliver strong return on invested capital
